

STEP 2 OF 5

Write your Objective

Scenario: Healthcare Scheduling — Patients wait an average of 12 minutes on hold to book an appointment. Describe the outcome you want, not the fix.

Objective

e.g. Make checkout the fastest, most trusted experience in our category

Objective : Create a frictionless, responsive appointment booking experience that respects patients' time and eliminates access barriers.

Key Results:

- Reduce average telephone hold time from 12 minutes to under 2 minutes.
- Increase patient booking satisfaction score (CSAT) from baseline to 90% or higher.
- Shift 40% of routine appointment bookings to self-service digital channels.

WSJF Calculation = Cost of Delay / Job Size

Question 4:

Draft a roadmap including vision, strategy, themes, KRs for IMDB just like we saw it for Netflix below.

Vision: Becoming the definitive global home for entertainment discovery, connecting fans with every movie, show, and creator across all streaming and theatrical platforms through personalized insight and trusted community voice.

Principles: Engage fans in utility-driven and authoritative-data ways.

Key Strategies	Tactics	Metrics
Hyper-Personalized	• Watchlist Notifications • Custom Home Feed	Reduce user click-to-play discovery time on linked streaming apps to under 45 seconds.
Unified Ecosystem	• Real-time Showtimes Integration • Multi-platform Sync	Increase percentage of weekly active users who click a "Watch Now" or "Buy Tickets" link to 35%.

Data-Enhancing	• Premium Ad Units • IMDb Pro Cross-Sells • First-Party Audience Datasets	Grow Average Revenue Per User (ARPU) through targeted cinematic ad campaigns by 15%.
